Fråga 20: What should be changed? (3 personer)

Kommentarer

- More practical examples and assignments, e.g. implementing a parser in one of the many compiler-compilers available, implementing a small virtual machine with gc etc.

More virtual machines!

- nothing to say.
- It would be interesting to look more at multithreaded architectures.

Fråga 21: What should be kept? (2 personer)

Kommentarer

- Past exams and their great solutions
- This course has been very well organized and been given very well also.

Fråga 22: General comments? (2 personer)

Kommentarer

- I've had an interest in compilers, regular expressions etc for a long time, but feel I lost some of my interest by attending this course. To much theory, to few practical examples.
- nothing to say.
