### Fråga 24: Comments? (5 personer)

#### Kommentarer

- This was a very good course and I definitely think that it should stay! It taught me a different way of thinking when it comes to programming
- I didn't use any books during the course, the lecture notes was enough.
- Lokalerna har väldigt dålig ventilation. Man blir trött, får ont i huvudet och orkar inte hänga med. Inte unikt för denna kurs, utan för alla IT-universitetets lokaler.

Det används för många Power point bilder på varje föreläsning. Live-kodning och live-exempel skulle ge mycket mer insikt och förståelse. Kursen är egentligen rätt fram, men presenteras på ett ytterst krångligt sätt.

- I thought that the course would cover more of the paradigms possible in Oz. It feels as if we've focused a lot on a few of the techniques used in software engineering. I thought that the course would be more general (partly because of the course name).

Overall, the course was good and the difficulty perfect (at least for me).

- Tschüss! Mach's gut!
