### Fråga 20: General comments? (3 personer)

#### Kommentarer

- Its a good course. Maybe it needs to be taken a step further to be of more use but its interesting anyways. although the exam had some surprises, like garbage collection :) thx christian!
- Great teacher, you can tell right away he loves what he is teaching and he is very helpful. The material is interesting.
- I liked the course a lot. The subject of compilers seems quite abstract and complicated when you dont know it. I had previously read a bit in the Dragon book, but it seemed to me that I would definitely need to be able to ask questions on the material if I was going to be able to learn it. So therefore it was good to be able to take the course. Also, it worked really well to come in as fristående and just take a course.

I also thought that the exam was challenging not a more-or-less copy of older exams. Enough of a difference so that you could not get by by only studying old exams
