Fråga 20: General comments? (4 personer)

Kommentarer

- To be honest, Christian Schulte is the best lecturer concerning both pedagogic and enthusiasm that I have had during my time at KTH. That he should know. Even so, due to personal reasons, I were not able to attend as many lectures as I would have liked.

- Very nice course! I liked that you covered the foundations of CP thoroughly, and I think that made the course easier than other comparable courses.
- The lectures were really interesting, but sal C1 is maybe not the most comfortable room. We have more space to sit in room 438.

The assignment were interesting but came late after their content has been explained in the lectures. Their length was OK.

Contrary to what was proposed during last lecture, I don't think that peer-review helps understanding. But I think that adding one more assignment is possible and would give us a deeper hand out of constraint programming.

- Too hard exam.. Some questions doesn't quite match the course material completely.
