Fråga 20: General comments? (4 personer)

Kommentarer

- Initially I hear that course was difficult. Actually it is hard but very interesting and has lot of fun in course.
- Course is great, teacher is awesome. But if you don't attend a lecture, sometimes it's hard to understand what the specific information on the slides mean. It feels like all words are their, but some important connection phrases are

missing.

- It would be nice if Gecode was less imperative and more declarative; closer to the pseudocode/mathematical annotation used in the lectures and less programming language specific.
